Dr. Robert M. Farrier
Assistant Director
Clinical Center
National Institutes of Health
Bethesda, Maryland

Dear Bob:

With reference to your conversation with the boss on 26 February, he has asked me to forward the attachments as indicated. There will be more of these, I am sure.

"Our people" were most interested in the report you so thoughtfully gave me and plan to get directly in touch with the individual you mentioned. Let me know if you have any trouble obtaining the additional crystals he needs.

Kindest personal regards.

Sincerely,
